1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl T. Thomsen on 10/25/05.

The application has been amended as follows:

In the abstract, last line, the phrase "means of" has been deleted.

Claims 14-16 have been canceled.

Claim 13 has been replaced with the following:

-- 13. The massaging head type massaging mechanism as set forth in claim 17, wherein the massaging mechanism is incorporated in a chair massaging apparatus comprising a seat portion and a backrest portion extending upward from an end portion of the seat portion; and the massaging mechanism being housed in the backrest portion with the massaging heads oriented toward a front side of the backrest portion. --

In claim 17, last paragraph, first line, "messaging" has been deleted and replaced with  
-- massaging --.

2. The following is an examiner's statement of reasons for allowance: the primary reason for allowance of the claims is the inclusion of a second guide support portion for movably supporting the bracing member, the second guide support portion comprising a joint link for rotatably joining the interlocking member with the bracing member, a slider provided on the joint link, and further including a guide rail for slidably supporting the slider. None of the prior art disclose or suggest this feature of "a second guide support portion" as substantially claimed by the applicants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
